

Liberia International Christian College (LICC) Decision Matrix

Over the past decade, several organizations have made significant investments of money, gifts-in-kind, time, and talent in the LICC:

- The United Liberia Inland Church Associates and Friends
- The United Liberia Inland Church Associates and Friends
- The LICC itself

As a result, each of these organizations justifiably has a sense of "ownership" that consists of accountability for the well-being and future of the LICC, and responsibility for the performance of the LICC.

However, unless clear boundaries are established between these organizations, there is risk that counter-productive conflict will arise in the governance and administration of the school.

Therefore, this document has the following goals:

1. Establish clear boundaries between governing organizations EXCEPT in critical areas where clear consensus is required.
2. Based upon these boundaries, serve as an aid for laying out the organizational structure, setting up administrative roles, and assigning responsibilities to them.

Definitions

Definitions used in this document are:

Approval authority presupposes that the approver: (1) Controls the resources needed to carry out the requirements of the document; (2) Actually has the resources; and (3) Commits to allocating or investing the resources.
Co-Approves	Same as "Approves," but when consensus is needed among two or more governing bodies.
